Recently I had discovered a passion for programming. After couple of online programming courses and Vilnius Coding School WEB Developing course I have learned various programming languages. I would like to work and keep improving myself in the position of WEB Developer.

Programming Courses:

2019 January – Vilnius Coding School „**WEB Development**“ course (4 weeks, 160 hours)

HTML5, CSS3, Sass, Bootstrap, JavaScript, jQuery, PHP, SQL, Wordpress, Git.

Project I did during the course: <https://bitbucket.org/simanaviciusedgaras94/projektas/src>

2018 December – SoloLearn „**CSS Fundamentals**“ course (8 hours)

2018 November – SoloLearn „**HTML Fundamentals**“ course (8 hours)

2018 October – DataCamp „**Introduction to Python**“ course (4 hours)

Work Experience:

2017 February – 2018 October (1 year 9 months): **Hotel Maintenance Technician** at Stracta Hotel, Iceland.

2017 February – 2016 September (6 months): **Housekeeper** at Stracta Hotel, Iceland.

2016 February – 2014 February (2 years): **Carpenter** at Norheim Natursten Skifer AS, Norway.

Education:

2013 – 2011: Utenos „Saulės“ gimnazija.

Languages:

Lithuanian (native), English (advanced), Polish (conversational).

Hobbies:

Photography, filming, gaming, motorbikes and bodybuilding.

Motivation:

For me it is really fascinating how programming changed world around us, from simple repetitive calculations to machine learning, virtual reality and complex algorithms, from plain HTML structures, to colorful, dynamic and interactive webpages. I am interested how WEB is going to change next, feeling tempted to bring my own ideas, and be a part of the progress of WEB Development.
